Oxford International Study Centre
individually designed study programmes in the heart of Oxford

Teacher Training Programmes

"We learnt practical solutions that can easily be implemented at our workplace. The lecturers were experts, the staff were flexible and supportive, and the course was extremely well-organised. It was a pleasure to participate in this teacher training programme."

- Patrycja, headteacher - Slovakian international school

Oxford International Study Centre has a great deal of experience in creating, organising and delivering training programmes for teachers from throughout Europe, and from others parts of the world. In the last year, we have welcomed teachers from **Poland, Germany, Sweden, Nigeria, Ethiopia, Slovakia, Hungary, Brazil, Italy, Greece, France, China, Japan, and Finland.**

Teachers are invited to join our courses individually, or in groups of staff from schools or other educational institutions. **Dates are flexible, and courses run throughout the year.** Programmes are tailored to suit the needs of each member of staff, and course structure can be varied to ensure all subject areas are covered, but the typical structure is as below:

In general, teachers take **English Language for Teaching classes at the appropriate level, taught in mixed nationality groups,** from 9.15 - 12.30.

In the afternoons, teachers break out into **specialist seminars,** either individual or in small groups, to work in depth on their chosen area of focus - this might be one of the specialist areas listed opposite, or another field entirely. We send detailed pre-arrival questionnaires so that we can ensure the tuition is tailored precisely to their needs. Entirely specialist programmes are available, on request, for closed groups.

Prices vary depending on course structure, but the cost of a typical one-week training course is £450. We offer substantial discounts for group bookings. Please contact us for a personalised quotation.

We welcome staff for training programmes in many different fields every year, and we are always happy to put together a tailor-made proposal for training courses. In the last year, we have organised programmes in fields including the following:

- **Advanced English Language for Teachers**
- **CLIL (Content and Language Integrated Learning) Programmes in over 20 different subject areas**
- **Early Years and Primary Education: Creativity in the Classroom**
- **Working with Students with Asperger’s Syndrome and Autism**
- **Classroom Management and Behavioural Tools**
- **Refresher Programmes for International Teachers of English Language**
- **Critical Thinking and Problem Solving**
- **Programmes for Educational Managers**
- **Working with Students Presenting Behavioural Difficulties**

All teachers receive detailed reports, as well as certificate of attainment, upon course completion. Our staff are experienced in working with Erasmus+ and Europass Mobility (KA1) funding, and are happy to help with all necessary paperwork, both before and after the training programme.

“Thank you, on behalf of both groups, for your professional courses once again. The feedback is really stunning! Both of these groups were very demanding, and so the lecturers must have been absolutely perfect. We will certainly work with you again.”

- Ada, training course co-ordinator, Poland
