

# TEACHER TRAINING

This popular continual professional development course is designed for teachers looking to build their methodology tool-kit whilst developing knowledge of British culture to enhance lesson material and content creation.

Reinforcing the principles of English language teaching, learning from an international group of peers and being guided by the experience of a Stay Campus Teacher Trainer. Classroom training is blended with informal exchange sessions in the format of a networking lunch and three tutor-led guided excursions, as well as two classroom observations affording trainees the unique opportunity to be a fly-on-the-wall in one of our English language sessions.
