Programme description

Galway Cultural Institute’s & Galway Business School’s English for University course is aimed at international high school students who are looking to improve their academic English skills before entering university. The course introduces learners to academic English and develops the necessary skills required at university level. The Programme promotes communication in English, essential study skills & challenges learners to think critically.

Programme objectives

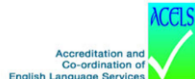

- To prepare students to transition successfully to higher education and to introduce students to the necessary academic skills required at third level
- To engage in academic research, learn to use a virtual learning environment and on-line library resources, complete e-activities, deliver presentations, participate in individual and team- work and carry out independent study.
- To develop students’ confidence in using listening & written English at university level in lectures & seminars, as well as reading and writing
- To expand vocabulary and communicate in an academic environment that highlights the importance of expressing opinions and critical thinking
- To enrich students understanding of cross-cultural awareness.

[Galway Cultural Institute](#) & [Galway Business School](#) share the same campus and are one of Ireland’s premier language and business schools. We are situated in the most beautiful spot on the Salthill promenade, along the Atlantic Ocean. The beach is one minute away and the city centre is ten minutes’ walk away. The school has expert lecturers and state of the art facilities, so your learning potential is maximised.

Galway is an extremely popular destination famous for its top quality educational institutions, its location on the Wild Atlantic Way and its warm welcome and hospitality. Its industries are software design, medical devices, education and hospitality. Galway has been selected as the [European Capital of Culture](#).
