30 LESSONS PER WEEK – 20 lessons GE & 10 lessons Technology

## Course description

Our Erasmus+ General English & Technology programme is designed for non-native teachers who teach subjects through English or plan to teach in English and want to gain skills in using the latest in educational technology. This course has been designed to up-skill participants in order to make a greater contribution in their home school both inside and outside the classroom. The programme focuses on giving participants knowledge and skills that they can share in their staffroom.

## Course objectives

- Improve participants' English language skills and work on their personal language goals
- Equip students with the confidence and skills needed to incorporate technology into the English language classroom
- Focus on materials development, assessment and micro teaching
- Gain an understanding of how to best use website resources/Apps within a practical lesson framework
- Explore a wide variety of practical tasks and activities which can be put to immediate use in the classroom

## Pedagogical outcomes

At the end of the programme, participants will be able to:

- Utilise technological resources to deliver high quality, dynamic and varied lessons
- Assess the suitability and adaptability of online resources
- Provide interesting tips to motivate students
- Further develop their teaching skills and language awareness
