NB: The workshops are **INCLUDED IN ALL OUR COURSES**, if it matches the timetable but they are compatible with almost all courses.

IMPORTANT, OUR "PLUS": The timetables are made, whenever possible, so that all students can take advantage of them to encourage maximum practice! When combined with the Intensive course (GI23), the specialised courses (private courses, law courses, Italian +) thus usually take place on Mondays, Wednesdays and Friday afternoons. It can be difficult for those doing 30 hours to make timetable match, but we try!

- **The grammar workshop** is a complementary lesson where we focus on specific grammar topics, especially designed for and divided by indicated levels. With this extra class, students have the opportunity to revise and clarify the grammar they have worked with throughout the previous week. One thematic per workshop!

- **The phonetics & pronunciation workshop** is a complementary lesson essential when learning a foreign language. Teachers often use our soundproof laboratory of dubbing and recording. Students get recorded so they can hear their voice and pronunciation in order to correct their mistakes and imperfections.

- **The conversation workshop** is a complementary lesson where students practice their communicative skills through everyday life topics.

ALL OUR COURSES INCLUDE:

- Daily homework and self-study
 - Extra homework (exercise book given to students that they give back every Friday for correction)
 - Regular test (written and spoken) every 2 weeks
 - Final certificate of attendance and knowledge
 - Final full academic personalized report
 - 3-4 activities accompanied by a teacher = informal conversation sessions outside the school!
