Your Home – Your Choice

Your options vary from destination to destination but your ideal home is waiting for you. Details of accommodation types available in each city can be found on the destination pages, pg. 42 to 89.

Find Your Home

Where you lay your head is home; where will you call home when you study with EC? We provide a range of hand-picked options to suit your individual tastes and budget.

The independent among you will love our residences, houses, apartments and aparthotels. Each one ranges from a standard accommodation to those offering added amenities, which could be an on-site gym, home cinema or a swimming pool, with a lot more besides.

Alternatively, to truly experience the local lifestyle, why not stay with a host and let yourself join in with their way of life. Being a part of the day-to-day routine in a homestay can be a great way to forge lasting relationships and witness the local culture first-hand.

Most importantly, wherever you choose, you'll make great friends and have plenty of opportunities to practice English together as you carve out a little corner of the world to call your own. Your home away from home.

As a teacher, I love it because it provides all the information about a student that I need to really help my students improve and it allows me to create individualised work plans for each of them.

Your Academic Journey

Your EC academic journey begins the moment you book your course. You will be able to access a curriculum that is highly structured to meet international standards, yet personalised to you, to meet your needs. Giving you real, measurable results.

EC gives you:

A FULLY MAPPED CURRICULUM
designed to meet the Common European Framework for Languages, an international measure of language learning.

DEFINED LEARNING OUTCOMES
providing you with clearly defined skills and abilities for each level so you will know exactly what you need to do.

OUTCOME-FOCUSED LEARNING
lessons, activities, homework and personal direction that will guide you through each level, along with self-study and continued practise outside of class.

REGULAR ASSESSMENTS
you are assessed every week in class and every five weeks on your overall progress, enabling teachers to focus on the areas where you need assistance.

How You Learn

- At the start of each class, your teacher explains the aim of the lesson.
- During class, you will learn and practise language skills relevant to real-world tasks.
- Your teacher gives you feedback on your language use and your performance on the tasks to ensure your learning.
- You learn by speaking the new language with your classmates.
- At the end, your teacher will again review the lesson aims so you can see the progress you are making.
- After class, the learning continues with targeted homework to help you practise conversations with what you learned in class.

A Typical Lesson

Each lesson is 45 mins, or 50 mins in Australia and New Zealand, and delivered in blocks of two.

- General English students**
15 hours per week, or 16.6 hours per week in Australia and New Zealand. No Special Focus lessons.

The Standard General English programme is not available for student visa holders in Australia.

- Semi-Intensive students**
18 hours per week, or 20 hours per week in Australia and New Zealand. Special Focus lessons 2 days per week.

- Intensive students**
22.5 hours per week, or 23.3hrs per week in Australia and New Zealand. Special Focus lessons 4 or 5 days per week, depending on EC school.

STEP 1

When class starts, your teacher states the objective of the day's lesson is to have an effective job interview where you will ask and respond to questions.

STEP 2

You will listen to example interviews, analyse language, learn key words and phrases, and practise interviewing classmates and staff. All the while learning the language to conduct an interview or be interviewed.

STEP 3

After class, you will interview your friend for your homework. This helps exercise problem areas and gain confidence as you realise your understanding has increased and you can effectively speak English in this context.

A Week in the Life of an EC London Student

Louisa, Swiss student at EC London

Monday

Thursday

Sunday

I have just unpacked my things at my home for the next month and I'm about to go to the **Weekend Experience** at EC London. I'm feeling a little nervous but mostly, I'm excited! A new city, a new language and in a way, a whole new me. The sun is shining so I'll walk to EC and explore some of the city along my way.

Relaxing in a residence at EC London

Monday

Today, I got to the school and there was **literally an orange carpet** at the entrance! I felt like a celebrity! I had already completed my **online placement test**, so I had to do a speaking test to confirm my level for the advanced class. We had an **orientation talk** to welcome us to the city which was very helpful. The whole day was really fun as we're all new and already I feel as though I'm making friends.

Tuesday

I'm in love with EC London and the city! It's buzzing and every day there's something new! It's only my first day of classes and it's challenging to speak English all day long but I can see how **my English will improve** during my time here. It helps that my teacher is so knowledgeable and makes learning such fun! We play at some games to practice **English in a different way**. It helped break the ice with people too.

Wednesday

This morning, I went to a workshop called **Pronunciation Clinic** to help make my English sound more natural. It is so good to hear pronunciation explained by a teacher. I took lunch with my classmates, then we went to our afternoon classes. This evening I went on the **London's Hidden Pubs Tour** organised by EC and had such fun! **The staff are great and so entertaining!**

Thursday

My classes were in the morning today, which meant I had the **afternoon free to explore** a little with some new friends. The school is **close to many tourist sights** so we went on the London Eye, then walked around Camden Market and also took a walk along bustling South Bank. It is lovely to feel like a local, to be able to walk into a café and talk to people as I order my coffee... I'm starting to think that maybe someday I could live and work here.

Friday

I went to another **free workshop** this morning, called **Grammar Q&A** and then to my classes in the afternoon. Having both in one day is **a great way to go over what I learned** at the Q&A. I can already feel myself understanding more and more in class and outside of it too. EC encourages us even when we make mistakes and I love that. I also saw some **students looking very happy graduating** from their course today. This will hopefully be me by the end of my course too!

Saturday

Today was **the school trip to Cambridge**... what a beautiful city! Punting down the river Cam felt like a fairy-tale and afterwards, we went for the traditional cream tea where I tasted scones for the first time! It amazes me how each day is something new and even better than the one before. My **new friends, the teachers and staff are all wonderful** and to think I still have 3 weeks of this left to enjoy. Bring it on!

Regulatory reasons in Australia and New Zealand don't allow us to promise outcomes in our schools there. However, we always provide support and guidance throughout your time with us to maximise your progress.

* Analysis covered a 12-month period in 2016/2017, and included all EC students who took a placement and exit test.

Celebrating Your Success

Learning English in Malta can be a life changing experience

Ivan Andres Padron Bazzarelli, 23, Venezuelan.

Your success is our goal and you can be confident that we will do everything we can to get you there! From beginners, improvers to advanced levels of English language student, everyone studies English to find their voice. Each one has their own incentive, and their road to achieving their dreams through English. One of our past students, Ivan, tells us his story about how he came to study at EC and what his success means for him and to us.

Why did you come to study here?

In the beginning, when my father suggested I go to another country to learn English, I didn't want to. I was completely against that idea, I had been attached to my family, culture, friends, and my girlfriend. To be honest, I was terrified; it took me a long time to decide whether to take it or leave it. After a while I realised that I couldn't miss out on this great opportunity and I should face my fears and leave behind all those things that were holding me back.

Finally, when I took my decision to go abroad to learn English, I started to think about all those options which were on the table. Honestly, EC Malta was the last option I took into consideration to go abroad. First, I had looked at the other EC schools in USA, Canada, Ireland and United Kingdom but taking into consideration all the pros and cons my last decision was EC Malta.

I am thankful that I chose EC Malta because it has been my best experience so far.

Do you think you've reached your goals?

For sure I reached my English goals. In the beginning, my English was too basic in all the four skills. When I came to Malta I couldn't speak and understand, I was struggling to find the way to communicate with people.

I started in an Elementary level and after almost a year I finished in a Pre-Advanced level. Personally, it wasn't easy for me to get the skills and knowledge in every level I went through.

I studied a lot and many times I didn't succeed, so I got disappointed more than once because I was working hard but the achievement wasn't coming. My teachers helped me understand that this was just part of the learning process. The most important fact is that I never gave up and I kept going. With the support of my teachers and determination, I achieved so much!

After 11 months as an English student at EC Malta, I improved my English a lot, I feel I passed from nothing to a good English level. Nowadays, I can communicate and understand people surrounding me. I expanded my English knowledge.

I believe I can achieve even more. So, I don't have doubt that I can keep improving my English. Thankfully, my experience at EC Malta gave me the tools to do it.

What's your best memory from your period at EC?

Well, if we talk about memories, I had a lot but talking about the best memory, it cannot be denied that the best one is related to all the people I met from different countries around the world with different cultures, beliefs, mindsets, religions, etc.

Even though we are from different countries and sometimes from opposite cultures, we found a way to share our values and respect each other as human beings. It was amazing to spend time with all those people, share our traditional dishes, go out together and learn every day. In some cases, we created a real connection that we will never forget in our lives.

How was your experience in the Cambridge course?

The experience in the Cambridge course was one of the best experiences that I've ever had due to the way that the course is organised. Moreover, it was a great opportunity to create very good relationships with people from different countries and cultures.

**What are your plans for the future? Do you think that this experience at EC Malta will help you achieving your goals?**

After this course I will go to Barcelona to start my studies in Business Administration and Management. In addition, I think that this experience will help me a lot in my future plans and in achieving all my goals because here at EC Malta I have learnt more than just English. I'm very glad for this experience and I wish that everyone has the chance to come and live this amazing journey that Malta has been for me.

Giving Back

Corporate Social Responsibility (CSR) is a central part of life in the EC world. We believe it's our duty to be actively involved in the communities that have welcomed us and helped EC to grow into the international presence it is today. Our Fundraising Policy allows us to match funds raised by our staff for global and local campaigns, and our centres are actively involved in local community projects for charities of their choice.

From school initiatives such as environmental clean-ups, volunteering and fundraising for local charities, to larger projects like our partnership with United World Schools (UWS) to build schools in the world's poorest regions, giving back is close to the heart of EC.

United World Schools Partnership

Since 2016, EC have an ongoing partnership with United World Schools, a charity who bring education to the world's poorest children. So far, we have provided the funding to build and give continued support for 2 schools in the very north of Cambodia, not far from the Laos border.

Providing communities with schools is just the beginning. By offering the children of these communities an education, UWS and EC are opening a world of opportunities to people who would otherwise have been quite limited.

An integral element of this partnership is developing a relationship between EC and the schools we have sponsored. In February 2017 we sent a team of EC staff volunteers on a trip to Ban Houy, Cambodia. Again, in 2019, we sent a team of 11 people for two weeks so they could visit Ban Houy school and the second school in Don Lo.

“

“Cambodians are wonderful people, reserved at first but full of a joy and honesty which is both humbling and contagious. The children, the communities and the UWS team are committed to helping and their generosity is overwhelming. Whether being given presents from the community or time and attention from the UWS team, the spirit of generosity shone through even the trickiest language situations.”

– Louise Osmond, EC Central

“

“The kids were so connected and focused. Nothing was outside of their abilities; they could work for an hour without any interjection. They possessed a level of concentration that really highlighted the negative impact our frenetic lifestyles, with so many distractions have on our focus.”

– Louise Osmond, EC Central

We also brought Cambodia to EC by sponsoring two UWS team members to study English at EC Brighton for six weeks. The team members enjoyed their study time and not only took back several new ideas for the local teachers in Cambodia, but also a much-improved ability to speak English with volunteers.

This initiative is very important to EC and we want to continue helping to provide education to children around the world. We have once again pledged that **for every student who completes a booking with EC, we will donate 1 Euro (€1) to our CSR initiatives like EC in Cambodia.** Our goal is to keep working with dynamic organisations like UWS to build more schools and help more children to fulfil their dreams of an education and to find their voices.
